Software Testing and Product Management

PROFESSIONAL EXPERIENCE

Goodpick Technologies Pvt. Ltd.

April, 2024 – April, 2025

Job Role : Front-end Developer and Technical Product Associate

- As a Front-End Developer, developed and maintained responsive user interfaces using Bootstrap, JavaScript, HTML, and CSS, ensuring cross-browser compatibility and mobile-first design for optimal accessibility. Collaborated with backend developers to enhance product functionality and improve user experience. Conducted UI testing, identified and resolved bugs to ensure a seamless and high-performance interface.
- As a Technical Product Associate, I actively gathered and analyzed client requirements to ensure product features aligned with business goals. Collaborating closely with product managers and development teams, I helped define and prioritize tasks for seamless execution. I assigned tasks to relevant team members, ensuring efficient workflow and timely delivery. Additionally, I conducted product testing, identified bugs, and coordinated with cross-functional teams to resolve issues and enhance product performance. I also provided product training to internal teams and clients, ensuring smooth adoption and usability.

RELEVANT PROJECTS

- UI Design for Taurus Mutual Fund Website

 - Contributed to the front-end development of the Taurus Mutual Fund website, designing key components like Header, Footer, Hero, and Trending Funds section with a clean, user-friendly layout.
- Single Page Website for Muds Management

 - Developed a single-page website for MUDS Management Pvt. Ltd., featuring a multi-step pop-up form with client-side validation, conditional logic, and dynamic OTP flow for a seamless and secure user experience.
- Password Recovery & OTP Verification Flow – ERP System

 - Designed and developed the password recovery and OTP verification flow for an ERP web app with responsive UI, real-time validation, and secure, user-guided steps.
- UI/UX Optimization for BORGERP Website

 - Enhanced responsiveness and cross-browser compatibility for borgerp.com by optimizing layouts, fixing alignment issues, and implementing media queries for seamless multi-device user experience.
- Responsive Design Enhancements for BORG ERP System

 - Contributed to front-end improvements for the BORG ERP system by making multiple modules fully responsive, enhancing layout consistency, and ensuring cross-browser compatibility for a seamless user experience.
